

As of September 1, 2009, the current Driving Privilege Card (DPC) issued by the Utah Driver License Division has taken on a new look. The DPC is issued to individuals who do not meet the requirements to obtain a Utah Driver License or Identification Card. The change will affect those who are applying for a new DPC or upon renewal of their current DPC. **The new DPC will contain the same data elements and security features as the current Driver License and Identification card, and the process to obtain the card will not change.** The most noticeable change will be with the format and color of the card. Driving Privilege Cards have a 1-year expiration; because of this, the division anticipates it will take until September 2010 before all DPC's have been replaced with the new card design.

If there are any questions regarding the new card design, please contact the Driver License Division at (801) 965-4437.
